DATA CHALLENGES

In your business, you have all of this valuable data that should be at your disposal. The problem is, that data is trapped...in silos, in outdated infrastructure, and behind endless security and compliance requirements.

Maybe you're trying to build your own solution from scratch on Microsoft's Azure platform - but finding it a costly and expensive affair.

That's why we created Dataware - an opinionated data platform that simplifies the path to unlocking the value in your data.

REAL SOLUTIONS

Dataware is built on top of Microsoft's Azure cloud platform, and it enables you to ingest, analyze, model, and visualize your data quickly, easily, and securely.

Essentially, ProArch Dataware makes your data and intelligence fully available wherever and whenever you need it.

With Dataware, you can manage your data as a first-class enterprise resource, all from one platform. And the platform is just the foundation for a comprehensive data-driven transformation for your business, one that's augmented with ProArch's team of experienced data scientists, engineers, and consultants who work closely with you to help you achieve true insight-led decision making.

LET'S GET STARTED

From our Rapid Reasoning methodology for Data Sciences, to custom digital products that enable advanced visualizations for critical business insights - we help you to surface data driven ROI.

Dataware gives you the power to unlock business value from your data, faster.

Contact us and find out how we can help you transform your business today.
